

LICENSEE SURETY PROGRAM

Location Details Form

Please use this page as many times as necessary for each single location, numbering each **location number** as 1, 2, 3, 4, etc. Although it is possible to issue a single bond for multiple locations within each NRC Agreement State or across all NRC-regulated states, the program would prefer to issue individual bonds for each location, in case of respective FA changes at locations in the future. There is no additional cost associated with this method.

Location Number	License #:	Company Name:	
	Licensed with this license # at this location since:		Fed Tax ID # for location:
